Subject: Application results – CERN-Solvay student camp

Dear Edgar Bruniau,

Thank you for your interest in the CERN-Solvay Education Programme. We appreciate the time and effort you put into your application and your enthusiasm for the world of particle physics.

We have good news for you. **You made it to the top 7% of all applications** to the fourth CERN-Solvay student camp. This is an incredible achievement, even if it does not yet guarantee a spot.

This year, we received 2500 applications from 120 countries - nearly four times last year's record of 650 applications from 90 countries. After a lengthy selection process, **we shortlisted 175 excellent candidates, and you're among them.**

Unfortunately, we cannot accommodate that many participants. Yet, we wanted to give more of you the opportunity to attend. Thanks to the generous support of our sponsor, Solvay, **we are opening a fifth camp, taking place 19 – 25 April 2026, and increasing the number of participants per camp to 36** instead of 30.

We now need your input. Sign to the CERN-Solvay Education Programme website and fill out this form: <https://solvay-education-programme.web.cern.ch/availabilities-camps-4-5> Let us know if you're available for the April 2026 camp, and which of the two camps you'd prefer if selected. If we don't receive your response before **Sunday 6 July 11:59 PM CEST** (Geneva local time), your application will no longer be considered.

Please note that **this does not guarantee a spot on a camp.** More than half of those receiving this email will unfortunately not receive a spot. Still, your odds are now significantly better. 1.2% of 2500 applicants were originally expected to be selected. You're well past that threshold!

We will share our **final decision by mid-July.**

Congratulations again on your outstanding application, and good luck with the final stage!

The CERN-Solvay Education Programme team
